SUBJECT:

State Authorization Bill--Hawkins-Percy Amendment

- l. I am sending for your information, review, and comment attached subject amendment (Tab A). We have analyzed it as containing problems from an intelligence equities point of view and are now in the process of making contact with appropriate Hill staffers to raise the issues involved. Inorder to complete the Agency's substantive review of the amendment, I would appreciate your review and oral comments ASAP. The Hawkins-Percy Amendment, along with the initial transmittal, is attached at Tab A and at Tab B you will find the House version of the same amendment, albeit found in the Foreign Aid Bill (H.R. 2992).
- 2. This is where we stand at the moment concerning the Tab A provision: Hawkins-Percy passed the Senate overwhelmingly by a vote of 96-0. It is being discussed in conference on the State Authorization Bill. Both OMB and State Department are vigorously opposing its enactment. This office has orally alerted appropriate HPSCI and HFAC staff to intelligence concerns. We are preparing for transmittal to the Hill talking points which will serve Conference Committee Members in discussing and developing alternative language in conference. It would appear that no one has focused on the intelligence equities, but rather, are opposing the Senate amendment procedurally, viz., as a provision that should be addressed in the Foreign Aid Bill vice State Authorization Bill. Your comments will help flesh out those talking points.
- 3. Tab B contains the language found in the Foreign Aid Bill which is being discussed as an alternative to the Hawkins-Percy Amendment in the State Authorization Bill. Tab B's language appears to be less onerous, since "U.S. assistance" is more narrowly defined by limiting its applicability to "foreign aid." However, I would appreciate your review of this language as well, particularly from the perspective of adding significantly to the DDI's "administrative burden" in terms of producing the "report" called for in the language.

SUBJECT:

Hawkins-Percy Amendment to the Senate State Authorization Bill

- 1. Attached for your information is a recent amendment added to the State Authorization Bill on the Senate floor. This amendment the Hawkins-Percy Diplomacy Against Drugs Amendment would link drug eradication efforts by foreign governments with bilateral-U.S. assistance. The prospect for passage of this amendment, which is not in the House version of the State Authorization Bill, is presently unknown.
- 2. Under this provision, if a foreign country fails to achieve the projected reduction in illicit drug production contained in a report prepared by the President, then the President must suspend all "United States Assistance" to that country, unless the foreign country failed for reasons beyond its control (weather, geography, political instability) or if continued assistance is in the national security interest of the U.S.—"United States Assistance" is defined in this amendment to include assistance of any kind by any U.S. Government Agency— As presently worded, this prohibition would seem to apply to CIA-furnished assistance.
- 3. The ability of the President to continue assistance under a "national security" exemption mitigates the impact of this amendment. Nonetheless, we would appreciate your office's assessment of the potential impact of this provision to complete our analysis of this amendment.

tion.

I wish you full success in your deliberations and nox forward to further cooperation with those governments participating
in the conference and with democratic governments everywhere.

Myribers of the Council of Europe, I think it is important to pile that President Ragan speaks for all pembers of this U.S. dilegation and for our entire country in expressing his high hypes for this gathering. We have come to isten, to learn, to contribute, and to cooperate in the common task of developing not only our conceptual understanding of democratic processes today but our practical ability to bolster the chances for democratic success in a world filled with those who hear and despise free societies.

I am especially hopeful that—by this time next y/2r—through the bipartisan Endoyment and institutions affiliated with the two political parties, labor and business—the United States will have reinforced phraningfully its tangible committy ent to partnership programs and exchanges designed to bolster democratic institutions throughout the world.

Would it not be a spierdid and historic occasion, Mr. President, if this Senate today fulfilled that bipartisan hope and passed this Endowment legislation? Once this legislation has been enacted, as I stated earlier, the Foreign Relations Committee will have a chance to review with the officials of the endowment and various institutes to be funded by it their procedures, bylaws, initial programs and plans. To do that, lowever, we must first passe the bill which I hope we can do expeditiously with the perfecting, technical amendment that I have sent to the desk.

I esk unanimous consent that the article entitled "Meeting Moscox's Ideological Challenge" be printed in the Record.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

- iFrom the Washington Times, Sept. 29,

MEETING MOSCOW'S INCOLOGICAL CHALLENGE,
(By William Brock and Michael Samuels)

(By William Brock and Michael Samuels)

For the first time, the United States has an opportunity to harness the experience and energies of the private sector in fneeting the global is cological challenge presented by the Soviet Union and its allies. Whether or not that opportunity becomes a reality depends on Senale approval this week of a proposal to create a National Endowment for Democracy.

Prompt passage of the legislation (S. 1342)

Prompt passage of the legislation (S. 1342) will send a strong message to the world that the American people Judy intend to support the growth and development of democratic plury ism abroad.

The legislation pending in the Senate would establish a National Endowment for Democracy as a private, non-profit corporation. It would receive an annual appropriation from the Congress and would be sub-

to the continually to Ject to Congressional operation and ruld. Activen business and labor. Such concerns ease 2008/01/04: CIA-RDP91B00135R000200330003-2 proundless.

are unique leature of the proposed endeam it is that all of the oversess prograph would be designed and implemented
by private sector groups including besiness,
abor, the two political parties, and others.
The Endowment legislation precifically
names four of the organizations that would
receive funds; the Center for International
Private Enterprise, the Free Trade Union
Institute, and separate Republican and
Democratic Institutes for International Affairs.

Each of the political party institutes will draw personnel and program ideas from congressional representatives, academia, and the national committees but neither is part of their respective national committee stuctures. The Center for International Private Enterprise is part of the National Chamber Youndation and will include on its governing board leaders from representative business groups. Similarly, the Free Traje Union Institute is affiliated with the ATL-CIO and will draw on labor's extensive experience in Asia, Africa, and Latin America. Other private sector groups such as the media, the legal profession, cooperatives, and academia are being encouraged to apply for funds.

-Our involvement with the National Endowment for Democracy riems from a research study conducted, with President Reagan's support, by the Dipartisan American Political Foundation. In addition to the two of us, the study group board also includes RNC Chairman Frank J. Pahrenkipf, Jr., DNC Chairman Charles T. Manatt, Sen. Christopher Podd, AFI-CIO President Lane Kirkland, Rep. Dante F2scell, Richard V. Allen, and other distinguished private representatives.

sector representatives.
This group of business and labor leaders, Republicans and Democrats, liberals and conservatives, strongly supports the Endowment concept. The Report, which was presented to the Administration and Congress in mid-April, recommended the establishment of the Endowment and documented the many potential benefits of such programs for the United States and for democratic forces around the world.

The Endowment concept is based on programs and concept is based on programs.

The Endowment concept is based on providing support for what President Reactive called in his speech to the British Paylia ment last year, the infrastructure of democracy-political parties, business associations free labor movements, a free press, and other elements of democratic pluralism. Each of the organizations recovering funds from the proposed Endowment would provide training, exchange programs, and support to its counterparts abroad.

port to its counterparts abroad.

The experience of the AFL-CIO's labor institutes clearly demonstrates that the most effective means of hitting the spread of communism is to support democratic groups through institution to institution exsistance on a partnership lasis. As democratic political parties, business groups, labor unions media, and other institutions emerge approximately the forces of tyranny can be more effectively checked.

Although government-to-government forms o'aid are essential and should be continued the direct assistance from experienced business people, political party leaders union experts, and others can make a decisive difference in building democratic pruralism abroad.

Some criticism has been directed at the preposed Endowment in the Senate and in the earlier Bouse vote. For the most part criticism reflects domestic partisan concerns that the proposed Indowment would be dominated by one party or the other. Some question the relative distribution of funds

Both political party institutes have been designated to receive the same approximation on the proposed Endowment board. In the cases of business and labor, the appropriate Congressional committees decided that, initially, labor would receive a larger amount as recognition of the work that regional labor training includes have already done in strengthening democratic trade unionism while opposing communism in Africa, Latin America, and Asia.

As the Yusiness Center's programs develop, labor and business will receive equivalent fynding in future years. Further, its broad bipartisan structure assures that no one group will be in a position to control the proposed Endowment. Congress of course, will exercise a strong oversight function to ensure that the proposed Endowment adequately coordinates programs and that all programs are in the national interest.

Domestic concerns aside, it is long pest time that the American private sector becomes an essential element of the national effort to provide support for democratic, pluraism worldwide. Indeed, the private sector is American democratic pluraism. What better way to confront our most dangerous adversaries than through our own democratic pluralist institutions?

Mr. FERCY. I know of no objection on this side.

The PRESIDING OFFICER. Is there objection? If there is no objection, the question is on a creeing to the amendment of the Synator from Illinois.

The amendment (No. 2344) was agreed to.
